The Lovely Bones Meets CSI in This New Book

FOREVER OURS

REAL STORIES OF IMMORTALITY AND LIVING
FROM A FORENSIC PATHOLOGIST

Janis Amatuzio, MD

“Here is a doctor with a heart. Her book brings tears to my eyes and joy to my heart and that is what life is about. Though pathology is her specialty, life is her teacher. Read and learn about life and the gifts of our mortality”

-- Bernie Siegel MD, author, 365 Prescriptions for the Soul and Love, Medicine & Miracles

In FOREVER OURS one of the most amazing books New World Library has ever seen, Dr. Janis Amatuzio gently explores the mysterious realms of visions, experiences and communications by families at the threshold of the death of their loved ones.

Known as the “compassionate coroner,” Dr. Amatuzio has been a practitioner in the field of forensic medicine for nearly 25 years and has performed thousands of death investigations. After explaining countless autopsy reports, toxicology results and conclusions that only science can provide, Dr. Amatuzio inevitably comes face to face with families’ raw grief and the question, “why?”

In the course of her work, she has heard extraordinary stories from grieving family members, patients near death, police officers, clergy, and colleagues – stories of the spiritual and otherworldly experiences concerning the transition between life and death.

These stories affirmed Dr. Amatuzio’s belief that, contrary to the attitudes of many in the medical community, there is more to death than the cessation of breath. She became a pathologist in part because it allowed her to unravel the mystery of each person’s death.

FOREVER OURS

These stories affirmed Dr. Amatuzio's belief that, contrary to the attitudes of many in the medical community, there is more to death than the cessation of breath. She became a pathologist in part because it allowed her to unravel the mystery of each person's death.

From the experience of one of her first patients – who on the day of his death told of being “visited” by a friend who had been dead for over forty years -- to incredible coincidences—such as two daughters thousands of miles apart experiencing unexplainable sensations at the precise moment their father passed away—Dr. Amatuzio began recording the stories she heard and filing them away.

FOREVER OURS presents these heartfelt accounts, exploring the synchronicities and communications on death's threshold. Told in the voice of a compassionate scientist and medical expert who sees death every day, these stories eloquently convey the comfort Dr. Amatuzio has found in what she sees and hears. There is no judgement or underlying agenda here; instead, the book offers readers hope, comfort and profound lessons on living from the heart of a compassionate coroner.

About the Author

Janis Amatuzio, MD is the founder of Midwest Forensic Pathology, P.A. She serves as coroner and provides forensic pathology services for several counties in Minnesota and Wisconsin. Trained at the University of Minnesota, the Hennepin County Medical Center and the Medical Examiner's Office in Minneapolis, she has been in the field of forensic medicine for nearly 25 years. Board Certified in anatomic, forensic and clinical pathology, Dr. Amatuzio is an internationally recognized authority in forensic medicine and has developed many courses on such topics as death investigation, forensic nursing, and forensic medicine in mortuary science. She is the author of numerous journal articles and has served as President of the Minnesota Coroners and Medical Examiners Association. Dr. Amatuzio is a dynamic speaker, a frequent guest in the media and a featured columnist for Imagine Magazine. She will be featured as an expert in a documentary series about women serial killers produced by the Discovery Channel, internationally in 2005 and a featured guest on an upcoming NBC documentary in September 2004. Dr. Amatuzio's Web site is: www.foreverours.com. She lives in Minneapolis, Minnesota.
