

FOREVER OURS

A Statement by Janis Amatuzio, MD

“As a physician, forensic pathologist and coroner for several Minnesota counties, I have had the extraordinary privilege of caring for families and their loved ones when death comes suddenly, unexpectedly, or traumatically. My job is to speak for the dead, to solve the mystery of “what happened?” I have occasionally, however, been faced with mysteries I cannot solve or explain. These experiences always baffle me, partly because as a scientist, I seek to reach a reasonable degree of medical certainty, a rational explanation. But I have come to realize that for some experiences there is no explanation, just a deep knowing that I have encountered the Divine.”

— Janis Amatuzio, MD
